HOTEL LOBBY GLEANINGS

BRICK FROM A NEWSBOY.

He Wanted to Read the Football News and Was Buncoed-Other Hotel Stories.

George B. Lockwood, superintendent of the press bureau that is maintained by the Republican state committee, met with newsboy Thursday evening who belongs to the enterprising class from which wil spring future presidents, Napoleons finance and such. Mr. Leckwood is something of a football enthusiast and as he was going home Thanksgiving evening he was casting about for an evening paper with the stories of the day's gridiron events. Just north of the Denison a ragamuffin came running up to him, waving frantically a single paper and calling: "Extry! All football news! Only one

left. Want football extry, mister?" Mr. Lockwood produced his coppers and reached for the paper. "This has all the football news, has it?" he asked in order to be sure of what he was getting. "Sure! Dis is de football extry. It's got

Mr. Lockwood put the paper in his pocket without glancing at the front page and went on home. After dinner he settled down in his easy chair for a comfortable enius of the newsboy. The paper was the ordinary afternoon edition of an evening paper. In the upper left hand corner of the front page the boy had scrawled in almost illegible hieroglyphics the word "Extra." A little farther over on the margin he had put in his football special from a staff correspondent in the shape of capitals and figures, "S. H. S., 12; M. T. H.

"I was a little bit sore," said Mr. Lockwood in telling the joke on himself yesterday, "because I wanted to see the football stories and I was just in the humor for an hour's good reading, but my admiration for the youngster who had sold me the gold brick was such that I couldn't get very mad. I'd like to meet that boy again and congratulate him. He has the same quality of enterprise and genius possessed by the managing editor of one of New York's yellow journals who in reply to a question as to what he would do in the event that a day came around without a single story that could be spread for a sensation, said: 'Why I'd run a big red headline across the front page reading "If the President Should Be Assassinated" with the words the, President and assassinated in letters that could be read at a distance of fifty feet, and the words if, should and be in type that it would require a magnifying glass to read, and then I'd follow the headline with a story on the probable effect of the assas-

"If that newsboy ever gets a little education he will be a bright and shining light in the world of saffron journalism," concluded Mr. Lockwood.

W. S. Chambers, New Castle Editor.

W. S. Chambers, editor of the New Castle Democrat, was at the Denison last night. Mr. Chambers has one of the comparatively few "good things" in the way of newspaper property in Indiana and he is making the most of it. His paper is the only Democratic weekly published in Henry county and there is no Democratic daily nor is there likely to be one until he establishes it. The county is Republican by a several Republican weekly papers and two dailies in New Castle. In every county the law provides a comfortable slice of the public patronage for the minority paper and Mr. Chambers gets all of this in Henry county, while his contemporaries fight for the larger slice, with the result that he gets more than any one of the Republican moval?

Several years ago Mr. Chambers, to-gether with A. W. Tracy, now of the Hartford City Times, founded the New Castle Daily Press, but they recognized the rough road of a daily in the town at that time and sold the paper at the first good oppor-Mr. Chambers then bought the weekly Democrat. The recent boom in New Castle has prospered Mr. Chambers to the extent that he felt justified in building a modern building for his office and he has recently completed putting in a new

and up-to-date equipment.

When Does a Pup Cease to Be? "When is a pup not a pup?" or, in other words, "when does a pup become a dog?" These are questions that are bothering House Manager Cunningham of the English. Mr. Cunningham recently acquired the sole title to a valuable piece of property in the shape of one fox terrior pup and his joy in the new possession was unalloyed until a cynical, unfeeling friend suggested to him that a dog would be a nice thing to have if it were not for the dog license. Mr. Cunningham replied lightly that the question of license did not trouble him because no one would be expected to pay such a big tax on such a small pup, but just the same the shaft of the cynic went nome and the hotel man has been asking everyone he has met for the past three days at what age a pup ceases to be a pup and become eligible, to a collar and tag. He fears the dog-catcher may slip upon him unawares and steal his prize, and he fears to go to the proper official to make inquiry for he is certain that he will be informed that he must pay the tax. In the meanwhile his friends are enjoying his dilemma, even if he cannot see the fun

SHERIFF'S OFFICE TO BE DIVIDED BETWEEN CONTESTANTS.

Republican and Democrat Will Each Hold Office for a Year in Greene

WILL BE NO SPECIAL ELECTION

TAXPAYERS WILL BE SAVED LARGE SUM IN THIS WAY.

Another Contest That Will Re Settled in the Legislature-Talks with Politicians.

The bitter political fight in Greene counwhich culminated in almost riotous scenes in Bloomfield on election day and the days immediately succeeding, is a thing of the past. Oil has been poured on the troubled waters and the storm has subsided. A compromise has been effected and the Democrats and Republicans, who for several weeks were at daggers' points and mentioned each other's names only with hisses and bitter invectives, have clasped hands across the breach. Now the leadersare coming down to the capital city, arm

in arm, figuratively speaking, to attend the

theater and enjoy a little city life.

The result of the election, as shown in the returns of the canvassing board, was a partial victory for the Republicans and a partial triumph for the Democrats. Candidates on both tickets were elected, but in the race for a sheriff the result was declared a tie and a new election was ordered by Governor Durbin for Dec. 2. The rival candidates were J. C. Huffman, Republican, and A. F. Wilson, Democrat, the present incumbent. Both parties he considered it a matter of general conand each was claiming the election of its this week, when a happy idea struck one of the leaders. He suggested a compromise, and compromise they did, with the result that the special election will not be held. Mr. Wilson will serve as sheriff for one year of the term and then Mr. Huffman will step in for the other half.

"We have compromised the contest," said Mr. Wilson, who was at the English last night. "We have decided to split the differences and each take a year of the term. No election will be held."

"But can such a compromise be effected legally, now that a special election has

been ordered?" to do it. It is the sense of the leaders of both parties and of the rank and file of the voters that the compromise is a wise one, and it will be made. There may be no law providing for such a way out of the emergency, but we'll find a way to do it. The arrangement is perfectly satisfactory to all parties concerned. No one in Greene county will raise a protest, unless it is some floater who wants an election every day in the year if he can get one, so why should the compromise not be carried into effect?"

The way that the compromise will be carried out is as follows: Mr. Wilson is the present sheriff. The voters of the county will decline to hold a special election. Mr. Wilson must serve, under the law, until his successor is elected or appointed. He will stay in office one year, and then he will resign, to be succeeded by Mr. Huffman, who will be appointed by the County Commissioners. The law provides that when a vacancy shall occur in the office of sheriff the County Commissioners shall appoint a man to serve until the next election. However, in case of a tie vote at an election, the law stipulates that a special election shall be held at the order of the Governor, and now that Governor Durbin has ordered the special election in Greene county the question arises. must not the County Commissioners hold ment between the candidates and party leaders? And if the commissioners fail to hold such election in pursuance of the

REASONS FOR COMPROMISE. The reasons for the compromise are that the leaders of both parties feel that another election would split things wide open in Greene county and lead to a veritable political feud, and that the people of the county should not be called upon to bear the expense of a special election if a way can be found to avoid it. The special election would cost the county at least \$3,000, it is estimated, and it would cost the candidates about the same amount each. The office is hardly worth such a price, expecially when

the candidates have been to the expense of one election already. Whether or not the proposed compromise in Greene county is strictly legal, it is doubtful if any one will attempt to defeat it. The people of the county have had all the politics they want for a year or two, and if they are a unit in favor of the compromise no one outside of the county is

likely to take it on himself to interfere one pound of and start trouble anew. There is one more contest in Greene county, but it will be settled by the Legislature this winter and the leaders of both parties say that no bitter fight will be made. Peter Schloot, the Democratic candidate for State representative, was declared elected by a plurality of four votes by the canvassing board. The Republicans, however, claim that in one precinct five votes were counted for Schloot that were not cast for him. and that, therefore, the Republican candidate. Will Hamilton, was elected by a plurality of one vote. Notice of contest has been filed, and the case will be settled at the opening of the session.

The disputed votes were in one precinct in which seventy-five votes were tallied for Schloot, while eighty were counted as the total in the figures at the right-hand side of the sheet. The Democratic election officials claim that eighty votes were counted for Schloot, but that through an error of the clerk, only seventy-five were tallied. They say that they counted the ballots and put in the total figures first, and then made the tallies, which is in violation of the election law, but which is often done. On the other hand the Republicans claim that the number of tallies shows the correct number of votes for the Democratic nominee and that therefore only seventyfive votes should be counted for him. The bag containing the ballots and the other tally sheet has not been opened.

but this will be done by the legislative Now that the parties have compromised on the sheriff fight, neither is pushing the representative squabble and leaders on both sides say that they will abide by the finding of the House committee on contests without protest. They only ask that a careful investigation be made. The whitewinged dove of peace is a bird that is warmly welcomed in Greene. Political fights in that county have grown to be so bitter that the phrase "in darkest Greene" has been used frequently in referring to political doings there and if the spirit of compromise prevails the phrase will gladly be forgotten by both parties.

NEWLY ELECTED LEGISLATOR.

Senator Presley Smith, of Paragon, Has Views on Various Subjects.

State Senator Presley Smith, of Paragon, who represents the joint senatorial district composed of Marion and Morgan counties, was in the city last night. He was accompanied by Mrs. Smith and a party of about fifty of his neighbors, all of whom came to see the production of "Ben-Hur" at English's.

In discussing the approaching session of the Legislature Senator Smith said last more calories of food value in ten pounds of if a scientific state official should tell you since it contains the constituents of a comevening that while he was interested in several questions he would probably introduce no bills this winter.

"I am deeply interested in the voting-machine question and the reapportionment of the State for legislative purposes," said the senator. "I feel that in the reappor-

tionment the Republicans will be just and considerate, and make an equitable apportionment. Of course, if any advantages are to be had, they should go to the Republicans, the victors at the last election. In regard to the voting-machine question I think that I should not be doing my duty as a representative of Marion county, the

largest part of my district, if I did not favor the adoption of machines, provided, of course, that a satisfactory machine can be secured at a reasonable price. I do not know that I am prepared to say that the adoption of machines should be made compulsory on every county.

"I do not believe that we need much legislation at this session. I feel that taxation should be reduced rather than increased. Meet all the urgent demands of the state, see that the wheels of progress are not retarded, but be conservative and economical -stand solely for the interests of the taxpayer-that is my policy. The people have confided largely in the Republican party and we should be loyal to that confidence. The people have continued the Republican party in power because of their economical and business-like management of state and national affairs.

"I predict that the coming session of the Legislature will be a conservative and business-like one. I do not think that the Republicans will be intoxicated by their recent victory, and thereby lose their heads and do things to the detriment of the people and to the discredit of their party. I believe that the affairs of the State are "I am in favor of one other piece of

safe hands. legislation that has been suggested-that is the adoption of a resolution requesting Congress to give the States a chance to amend the federal Constitution so as to

cover the question of trusts."

John W. Kern and B. F. Shiveley Want Complimentary Vote.

From the variety of expressions from the leading Democratic members of the General Assembly it appears that there will be a pretty contest between John W. Kern, of this city, and Benjamin F. Shiveley, of South Bend, for the rather empty honor of receiving the complimentary vote of the minority for United States senator. Many of the Democrats have declared for both men, each of whom has zealous friends who will not see the claims of their man ignored without a protest.

Senator Cyrus E. Davis, of Bloomfield, said last night at the English Hotel that he was not yet ready to declare himself on this question, although he had his mind made up. He said that he was friendly to both Kern and Shiveley, but it is thought that he inclines rather to the Indianapolis

leader in state politics and I think it would be a very ungracious thing if he were not recognized as the Democratic leader in the Senate," said Senator Davis.

Mr. Davis was the Democratic floor eader in the House two years ago, but ne won the honor after a hard fight, and his leadership was not universally conceded on the Democratic side. He said last night that he believed Representative Slack would be the minority's leader in the House this winter. As to questions of legislation the senator from Greene county said that he favored

the adoption of voting machines, the primary law and a registration law. question of voting machines he considers one of greatest importance for the consideration of the Legislature.

FLEMING HAS A KNIFE.

He Will Contest O'Brien's Desire for Senatorial Supremacy.

Senator Stephen B. Fleming, of Fort Wayne, one of the minority's most active members of the Senate, was in the city a few hours last evening. When questioned about sundry matters connected with the coming session of the Legislature, Senator Fleming begged off, saying that he had forgotten all about politics, but when he was asked who would be the minority leader on the floor of the Senate his memory bright-

"I dont' know," he answered, "but if Jim Fortune wants to be floor leader, I'm "How about State Chairman O'Brien's claim to that honor?" "I'm for Jim Fortune," was his

gestive reply. Evidently Senator Fleming's memory dates back at least as far as the time when he sought to become chairman of the Democratic state committee and was turned down decisively by O'Brien et al. In fact, t is said, and the senator has never denied the imputation, that every night before he sleeps he repeats to himself the much-quoted line from Kipling's "Recessional"-"Lest we forget—Lest we forget!"—and then gets out his knife and fondles it affectionately as he thinks of O'Brien, now senator from the district of Dearborn, Franklin and Ohio

Senator Fleming will not yield O'Brien's claim to the leadership in the ceed the late State Senator C. C. Binkley Senate this winter, and in the event that | in Wayne county, and in case he is there the state chairman presses the point, the harmony of which the minority members have been talking so much will become less tangible than the most evanescent dream. The senator from Fort Wayne has a considerable following among his colleagues of the minority, and if he goes after O'Brien's scalp at the very opening of the session it's an even bet that he will wear it at his belt before the legislative wheels have turned many rounds.

It is announced that Charles Martindale will not be a candidate for the Republican nomination for mayor next spring. Some of Mr. Martindale's friends have said that he would make the race against Mayor Bookwalter, but he himself has said that he could not afford to give up his law practice for the office. Mr. Martindale made the race for the nomination for joint senator from the district of Marion and Morgan counties against L. A. Cox. The nomination went to Presley Smith, of Morgan county, however.

A Mite for the Treasury.

The decision of the Supreme Court in the suit of the Hogan Transfer Company to test the validity of the transfer wagon ordinance will, Controller Bruenig thinks, bring about \$1,000 a year revenue to the city. The Hogan Company alleged that the collection of the transfer-wagon license was invalid because the same vehicles had already been taxed under the general vehicle ordinance. The Supreme Court held the transfer ordinance valid. Mr. Breunig says transfer men will have the right to take licenses until Dec. 5, after which those not having them will be prosecuted.

Col. Walker Re-Elected.

Col. I. N. Walker was re-elected president of the board of control of the soldiers' and sailors' monument yesterday at a meeting of the board. Major G. V. Menzies, of Mount Vernon, was elected vice president, Col. Benjamin Starr, of Richmond secretary and treasurer and Col. George W. Parker superintendent. There is some talk of Colonel Starr being elected to sucwill be a vacancy on the board.

Postponement in Gas Case.

Judge Neal, of the Hamilton County Circuit court, is quoted as saying that he will postpone his decision of the gas company injunction suit for thirty days from to-day. The expiration of the first postponement it is said, prompted the judge to announce that he would not decide the injunction case until he had given it more considera-A new candidate appeared in the field tion.
